March 15, 2016

Dear Principal and/or Chief Guidance Counselor:

I am pleased to inform you that I, along with Congressman Matt Salmon and Congressman David Schweikert, will host a United States Service Academies Conference on **Saturday, April 23, 2016**. The conference details are:

**Horizon High School
5601 East Greenway Road
Scottsdale, Arizona 85254
Saturday, April 23, 2016
10:00 a.m. – noon**

This nonpolitical conference is free of charge and open to all Arizona high school and middle school students and their parents. Representatives of the Air Force, Coast Guard, Merchant Marine, Military, and Naval Academies, along with parent and alumni associations, will be in attendance. The representatives will explain the unique academic, military and career opportunities the academies have to offer. Congressional staff will also be present to answer questions about the required Congressional application and nomination process.

Whether it's the chance for a first-rate, free college education or to pursue a rewarding military career, the service academies offer opportunities like no other institution of higher learning. They are competitive with the nation's most prestigious schools, and this conference will give your students a better understanding of the requirements, demands, and benefits of an academy education.

This conference provides high school students and their parents with one-stop shopping for information about the service academies. So that students attending your school may be properly notified of this program, I am enclosing posters suitable for placement in career centers and college guidance offices. Any other assistance you might choose to provide in advertising this conference would be appreciated.

Should you have any questions or desire more information, please don't hesitate to contact Sandy Ledy or Chelsea Lett in my Phoenix office at 602-840-1891.

Thank you for all of the good work you do.

Sincerely,

JEFF FLAKE
United States Senator
